Investment performance assumes reinvestment of all dividend and capital gain distributions. Returns for less than one year are not annualized. Performance data may reflect the effect of voluntary fee waivers or expense reimbursements that may change or end at any time. Prior to September 1, 2024, the Fund operated as an institutional prime money market fund and invested in certain types of securities that the Fund is no longer permitted to hold. Consequently, the performance shown may have been different if the current investment limitations were in effect during the period prior to the Fund's conversion to a government money market fund.

Performance of the Fund and its E Class shares prior to October 7, 2016, reflects the performance of a predecessor fund, the Institutional Class of the Meeder Prime Money Market Fund, which was distributed and transferred to the Institutional Prime Money Market Fund upon its inception. Returns for the F, X, Y and Z Class shares reflect performance of the E Class shares prior to the creation of those share classes.

The 7-day Unsubsidized Yield is the annualized average income return over the previous seven days. The 7-day Subsidized Yield reflects fee waivers currently in effect. Without such waivers, yields would be reduced. Yield quotations more closely reflect the current earnings of the fund than total return quotations.

The gross expense ratio reflects the total fund operating expense ratio gross of any fee waivers or expense reimbursements as set forth in the current prospectus. The net expense ratio is the audited ratio of net expenses to average net assets as set forth in the fund's most recent annual report, which may include the effect of voluntary fee waivers or expense reimbursements.

Meeder Asset Management, Inc. (the "Adviser") has contractually agreed to waive investment advisory fees for all classes of the Fund and to waive or reimburse expenses to limit the Total Fund Operating Expenses of Class Y of the Fund to 0.17% of its average daily assets, exclusive of brokerage costs, interest, taxes, dividends, dividends and other expenses in connection with the short sales of securities, litigation expenses, indemnification, expenses associated with the investments in underlying investment companies, and extraordinary expenses. Any waiver of investment advisory fees or reimbursement of expenses is subject to recoupment within the following two fiscal years of the date on which the expense reduction or reimbursement occurred if the Fund is able to make the repayment without exceeding the lesser of the current expense limitation or the limitation in place at the time of the initial waiver or reimbursement. The agreement is effective through April 30, 2027, and may not be terminated prior to that date without the consent of the Board of Trustees.
