Investment performance assumes reinvestment of all dividend and capital gain distributions. The results do not reflect the effect of taxes a shareholder would pay on Fund distributions or on the redemption of Fund shares. The Fund’s performance prior to October 7, 2016 reflects the performance of a predecessor fund, the Institutional Class of the Meeder Prime Money Market Fund, which was distributed and transferred to the Institutional Prime Money Market Fund upon its inception. The Institutional Prime Money Market Fund has since changed its name to the Government Money Market Fund with a new investment strategy. The subsidized 7-day current yield is the current annualized net yield of the Fund. The unsubsidized 7-day current yield does not reflect the effect of any fee waivers or expense reimbursements made by the Fund’s investment adviser. The 7-day current yield more closely reflects the current earnings of the Fund than total return.
