

Balanced Fund

Fund Overview

This annual shareholder report contains important information about the Balanced Fund for the period of January 01, 2025, to December 31, 2025, as well as certain changes to the Fund. You can find additional information about the Fund at meederinvestment.com/mutual-funds. You can also request this information by contacting us at 866.633.3371.

What were the Fund's costs for the year?

(based on a hypothetical \$10,000 investment)

Class Name	Cost of \$10K Investment	Cost Paid as % of \$10K Investment
Institutional Class	\$109	1.05%

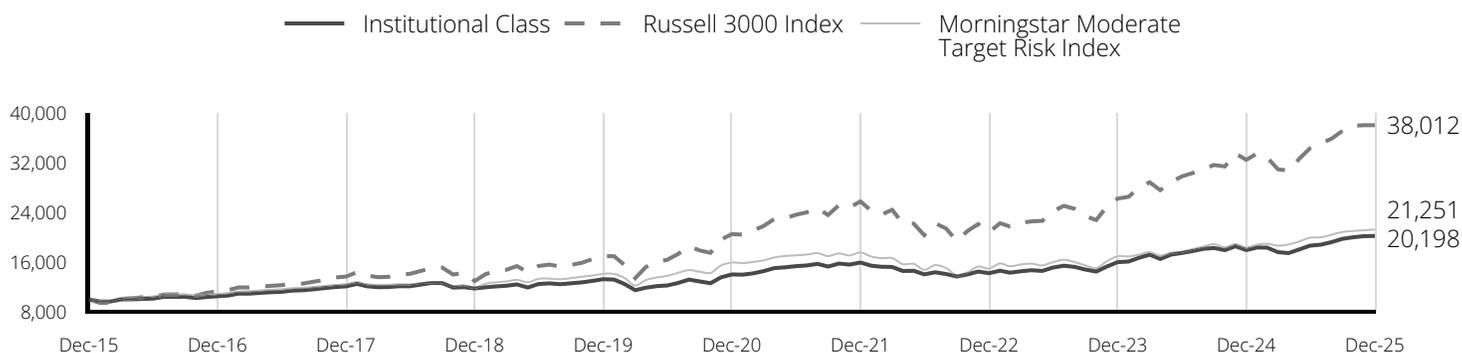

How did the Fund perform last year?

Performance for the Fund in 2025 was driven by:

- The overweight to equities relative to fixed income. Equities achieved above-average returns and faced some volatility in 2025.
- International equities outperformed U.S. equities. While exposure to non-U.S. equities was a positive contributor to performance, the Fund held a lower international equity allocation than its benchmark, which detracted from its relative performance.
- U.S. stock selection was additive to performance.
- Overweight to US high yield fixed income, as US high yield outperformed investment grade bonds. Overweight to Emerging market debt securities also benefited the fixed income portion of the Fund.

How did the fund perform last 10 years?

Total Return Based on a \$10,000 Investment

The Growth of \$10,000 chart compares the performance of the Fund over the period shown with dividends and capital gains reinvested to the Fund's benchmark. Benchmark indices are unmanaged and do not reflect the deduction of expenses associated with a mutual fund, such as investment management and accounting fees.

Investment performance assumes reinvestment of all dividend and capital gain distributions. The results do not reflect the effect of taxes a shareholder would pay on Fund distributions or on the redemption of Fund shares. Historical performance attributed to the Institutional and Adviser Share Classes prior to their inception dates is based on the performance of the Retail Share Class. No adjustment has been made to reflect class-specific distribution or servicing fees. Returns may reflect the effect of voluntary fee waivers or expense reimbursements over the period shown. Without these waivers, performance would have been lower.

The performance data shown represents past performance, which does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. For current month-end performance data, please visit our website at www.meederfunds.com.

Fund Statistics

Total Net Assets	\$438,584,086
