Meeder Moderate Growth

Objective

The Moderate Growth Portfolio seeks long-term growth of capital with a secondary objective of current income.

Investment Strategy

Utilizing Meeder Funds as the building blocks of a diversified portfolio, the Balanced Portfolio seeks to achieve it's objective using a maximum exposure of 70% to equity securities and a minimum exposure of 30% to fixed income securities. However, by utilizing our Defensive Investing strategy, the portion of the portfolio that is allocated to our Defensive Equity Strategy (70%), may at times be invested in fixed income and/or money market securities, which will result in a fixed income allocation between 30% and 100% of the total portfolio.

Primerica Disclosure. For investors that access strategies through the Primerica Advisors Lifetime Investment Program, Primerica Advisors or its service providers, not Meeder, is responsible for implementing the strategy in the investor's account. Gross performance of the strategy, as implemented by Primerica Advisors, will vary from Meeder's composite performance. Net performance for individual investors will vary based on the fees charged by Primerica Advisors, as well as Primerica Advisors' management of its program and each client's account.

Composite: This model portfolio is managed in accordance with the portfolio composite for the Meeder Moderate Growth Portfolio created on 12/31/2009, which includes all fully discretionary accounts managed consistently with the model for Meeder clients or third-party investment advisors for whom Meeder acts as a sub-advisor. The composite does not include assets for programs in which Meeder provides a model allocation, but does not have discretionary investment authority.

Performance Calculations: Investment performance assumes reinvestment of all dividend and capital gain distributions. Returns for periods less than one year are not annualized. Performance is calculated in U.S. dollars and is presented net of all fees including the internal expenses of the Meeder Funds included in the Portfolio. Meeder does not charge a separate fee for managing the Portfolios; however, each Fund within the Portfolio contains a management fee within its expense ratio. Gross Composite Return represents the gross performance of the Meeder composite portfolio without deduction for investment management fees. Your portfolio may experience different results from those shown here, and current performance of the composite may be lower or higher than the performance data quoted.

Expense Ratios: The Weighted Gross Expense Ratio reflects the weighted operating expense ratio of the funds in the portfolio gross of voluntary fee waivers or expense reimbursements. The Weighted Net Expense Ratio is the weighted net expense ratio of the funds as set forth in the fund's most recent annual report, which includes the effect of voluntary and contractual fee waivers and expense reimbursements, but does not include the effect of wrap or other advisory fees charged by your advisor. The Adjusted Net Expense Ratio reflects the Net Expense Ratio excluding Dividends on Short Sales and Interest Expense as reported in the Fund's prospectus.

Benchmark: The Benchmark for the portfolio is the **Morningstar Moderate Target Risk Index.** The **Morningstar Target Risk Index** family is designed to meet the needs of investors who would like to maintain a target level of equity exposure through a portfolio diversified across equities, bonds and inflation-hedged instruments. The **Morningstar Moderate Target Risk Index** seeks approximately 60% exposure to global equity markets.

Risk Disclosure: The Composite is invested in Meeder Funds. Carefully consider the investment objectives, risks and expenses of the component funds before investing. The prospectus contains this and other information about the funds.
